

Our GO-SIM data bank is a SIM card reader/writer on a keyring that acts as a portable data bank for your mobile phone numbers without the need for a PC.

Simply insert your SIM card to make a copy or backup and transfer your contacts to your new VisitBritain SIM card:

- Works with any GSM SIM card
- Store up to 250 contacts from your usual SIM card
- Copy them to your VisitBritain SIM card
- Save your contacts even if you loose your phone
- Fully portable - no PC or additional software required
- Complete with battery
- Simple to use - 2 key operation
- Retains information even if battery runs out of power
- Handy keyring design to take with you when travelling

Colour/design may vary from picture.
